His emergency work has also taken him head-first into natural disasters such as the Nepal Earthquake and Ebola Outbreak in West Africa. In 2006, whilst posted to Nepal during the Maoist Insurgency, Mark took leave and summited Mount Everest to raise awareness of global hunger. Fasten your seatbelts, as this will be a ride to remember!

More about Mark “Squiz” Squirrell:

When Mark headed to the East Timor Crisis in 1999 he was setting out on the adventure of a lifetime. It was a journey that would see him navigate some of the globe's most brutal war zones to deliver emergency aid and conquer the world's tallest mountain.

Mark was awarded the coveted “Green Beret” whilst serving with the Australian Commando's. His tenure with the military provided him with the skills and courage to succeed amongst adversity and turmoil. It was the perfect grounding for a career as a Humanitarian Aid Worker.

Mark escorted food convoys through the Gaza Strip, negotiated with the Liberation Tigers of Tamil Eelam (Tamil Tigers) and brokered deals with Somali Clansmen to ensure the safe delivery of United Nations food aid. In doing so, he has mastered the challenges of performing under pressure, communicating effectively and building relationships.

Mark uses anecdotes and presents real time scenarios that demand lateral thinking to deliver relevant and practical tips for those working in today's complex and fluid global market. The real time conundrums are presented via authentic video, Virtual Reality goggles and photos that have the audience embroiled in the critical decision making that led to his eventual success.

In addition to this, Mark has taken the concept of being motivated at work to an all new high. He was inspired by his organisation, the United Nations World Food Programme (WFP), and the impoverished people that it feeds, to climb to the top of the world to help raise awareness of the global hunger crisis. After a gruelling six week ordeal, Mark raised the WFP flag on the summit of Mount Everest. The inspiring and thrilling recount across glaciers and up exposed cliffs reveal the motivation, habits and adversity skills that facilitated his success.

Mark has a Bachelor of Business (HRM) and has published a memoir titled *From Arafat to Everest*. In 2019 Mark was recognised in the Australia Day Honours List with an Order of Australia Medal (OAM) for “service to the international community through humanitarian aid”. He continues to deploy on short term assignments to emergency zones with the United Nations.

Now based out of Melbourne, Mark provides keynotes, workshops and team building activities to develop workplace performance. Unique footage played through Virtual Reality goggles guarantee that your staff will have a life-like, high impact and unforgettable experience!
