## Client testimonials

---

“ An outstanding speaker, Rod captivated the room with his presence (he's a tall man) and he wove his experiences ... be it the Olympics, businesses or personal, into the theme of the conference. He is worth every cent.

*- Ci Events*

“ Rod was simply excellent. We had a cross section of middle to senior managers in the audience and his ability to unite the group with an amazing array of anecdotes, stories, facts and motivation was wonderful. Rod gave an insight into public companies, private companies, bureaucracies and high achievers and translated this so the audience could get the many messages he was conveying. Our staff came away commenting how relevant to our industry and needs that Rod was and the fact he came to the office beforehand to prepare left people very impressed. He listened to my needs prior and delivered in spades. Fantastic, thanks.

*- International SOS*

“ Rod is always the most professional of speakers to deal with. He also tailors his speeches to the audience and never fails to impress. He is certainly one of Australia's heroes.
