Client testimonials

“ Marty Switzer MC'd, facilitated and moderated our property and construction roundtable for the Young Presidents Organisation in 2012. He was a highly professional and engaging speaker and MC who did an excellent job running the agenda and interviewing some of Australia's biggest names in property and construction. His work facilitating our panel session was also first rate. We were also highly impressed with his moderating skills and how Marty managed to keep 30 high performing alpha males under control for two whole days. An excellent job all round.

- Centuria Property Funds and YPO property and construction round table

“ Marty Switzer has been presenting and facilitating educational seminars for us over several years. His work is both professional and entertaining. He offers our people great practical insights into the world of personal finance and he does so in a way that listeners can easily understand and apply in their lives.
