***Business & team keynote speaker, conference MC & outdoor team building facilitator***

Malcolm McLeod delivers dynamic tailored presentations and facilitates exhilarating activities for corporate audiences on team building, change facilitation, leadership and communication. No matter what the topic, his emphasis is on learning while having fun!

A brilliant analyst of handwriting, Malcolm uses this fascinating talent in his presentations to humorously but potently unveil the character traits that are revealed in your handwriting. He also shows you how to interpret other people's writing and find out what they are really like!

An expert on group facilitation, Malcolm has spent over twelve years developing and presenting fun, informative, indoor and outdoor team building programs with a guiding philosophy that any program without immediate positive work and home applications is just an indulgence.

Malcolm has worked with clients in Australia and around the world that include Seagate, CentrePointe Finance, Luxottica Asia Pacific and Alesco.

### **About Malcolm McLeod:**

Originally a member of the Queensland Police Force, Malcolm spent six years in Long Bay Gaol facilitating group therapy and counselling inmates on how to realise their potential. As a result, he finds most conference groups a delight to work with.

After his gaol experience, Malcolm spent six years on Hayman Island as the activities manager and tennis coach. Here he blended fun activities and group therapy with a 5 star service attitude. Malcolm went on to deliver training and team building programs to corporate groups, which sparked his interest in the science of handwriting analysis and group facilitation then led to 20 years studying graphology.

Malcolm's major strength is large group facilitation, indoors or outdoors. Regardless of where he is performing, Malcolm communicates his client's message simply, creatively and powerfully.

Importantly, he gets results with an emotional intensity and hilarious, relevant joviality – and he makes learning stick.
